Once the MFA code is received via the selected route, the user will enter the 6-digit code and select Verify Code.

The MFA code can be resent as needed.
The **Begin Alternative Setup** option can be used to set up an additional form of MFA or the user can continue with the **Complete Registration** option.
User Registration – Registration Complete

Congratulations, your account has been successfully created.

- If you are an Individual Provider, you will be able to see all associations with your NPI.
- If you are an Authorized Official or Access Manager, you will need to add your employer(s) to manage staff and connections associated with your employer(s).
- If you are a Staff End User, you may add your employer and ask an Authorized Official or Access Manager associated with your employer to grant you access; or you can ask an Authorized Official or Access Manager associated with your employer to invite you to work on the behalf of the employer.

The user has now created an account in Identity & Access...this is only the first step!

- Sign Out of Identity and Access and return to NPPES.
The next time a User signs into I&A, they will be asked where to send the verification code and about the device.

- **Public Device** – MFA code will only verify access for that **ONE** session.
- **Private Device** – the system will install a cookie on the device, & the MFA is good for **24 hours**.
Once back at [https://nppes.cms.hhs.gov](https://nppes.cms.hhs.gov), the user will sign in under **Registered User Sign In** to begin the initial NPI application.
The user will be presented a page detailing MFA requirements for NPPES.

- Since the MFA is set up in I&A, the MFA page prompts the user to send/receive the verification code to the location initially selected during set up.
- If the user needs to make changes to where the code is sent, they can select the link to make edits to their MFA set up.
After the code is sent, the user must select the device type.

- **VERIFY CODE** is selected.

**Public Device** – MFA code will only verify access for that **ONE** session.

**Private Device** – the system will install a cookie on the device, & the MFA is good for **24 hours**.
Initial Application for Myself – Type 1
Upon logging in with the I&A established User ID and password, the user can select **Apply for an NPI for myself**.
Tip: Once a radio button is selected, it can be changed; however the selection cannot be removed completely.
Applications are *not* required to be completed in one sitting. Users can save information and come back to it at a later point.

On any page, the **Save & Return to Main Page** button may be utilized to save the application progress.
To return in an application that is in progress, select the pencil icon to return to the page that was last completed in that application.
Initial Application - Address

- Users must provide both a **Business Mailing Address** and, at minimum, one **Practice Location**.

### Address

This information will be used to contact the provider if we have questions about the NPI application.

**Business Mailing Address (Correspondence Address)**

This is the address where we can contact you directly to resolve any issues that may arise during our review of your application.

- [ADD A BUSINESS MAILING ADDRESS](#)

**Practice Location (only one required)**

This is the physical address (cannot be a Post Office Box) where services are rendered. Multiple locations can be entered, but only the primary location is required.

- [ADD A PRACTICE LOCATION](#)
Users must select the type of address that will populate the required fields for the Business Mailing Address.

- **US Domestic**
- **Military**
- **Outside US / Foreign**

Additional checkbox to indicate: **‘This is my home address’**

The pencil or trash can be utilized at any point to edit or delete information that has been entered on the application.
Endpoints may be associated with an NPI.

- Endpoints provide a simple and secure way for participants to send authenticated, encrypted health information directly to known, trusted recipients over the internet.

- Can be used to exchange health information between health care entities (primary care physicians, specialists, hospitals, labs, etc.).
Endpoint: In the context of a provider directory, secure locations on computer networks where protected health information can be sent and received.

Endpoint Description: Freeform narrative that provides information on the Endpoint. Used to provide context.

Endpoint Use: Indicates the most common ways an Endpoint is utilized, for Direct Email, for sending data to an HIE, or other. Used to provide additional context and direction to users of the directory.

Endpoint Content Type: Further definition of endpoint details that provide guidance in the use of a particular endpoint and what one might expect when implementing a connection to an Endpoint.
Health Information Exchange - Endpoints

- Select **Endpoint Type**:

- Input the **Endpoint**:

- Select **Yes or No** to **Is provider affiliated to another organization?**
If **Yes**, the user must select **Choose Affiliation** and look up the organization using either the NPI, full EIN, or LBN. Search Results will show below the search bar.
The user can select from the search results by selecting select next to the appropriate affiliated organization LBN.

They must choose the corresponding Endpoint Location using either the drop-down menu or by selecting Add New Endpoint Location.

- An Endpoint Location Address field will open and the user can add a new location. It will run address standardization.

Select Save.
If information is entered on this page, the user is required to check the acknowledgement box before saving.
Other Identifiers (Optional)

- Other Identifiers listed on this page will associate other provider identifiers with the NPI.
  - Medicaid & any non-Medicare numbers

Select issuer type from the **Issuer:** drop-down menu.
Input the issuer **Identification Number:**
Input the applicable **State Issued:**

If a user enters their SSN or any 9-digit number NPPES will generate a warning message:

- User has the option to Review Data Entered or I Understand.
Taxonomy

Provider’s Taxonomy Information.

* Indicates required fields.

You are required to identify at least one taxonomy to associate with your NPI. If you identify more than one, you must identify which one is the primary taxonomy. Provider Taxonomy codes and their description can be found on the Washington Publishing Company’s web page.

To enter a taxonomy code, start by entering either the taxonomy code, classification code, or specialty in the Choose Taxonomy Filter box. All taxonomies containing the data you enter will display in the dropdown Choose Taxonomy box, allowing you to select the appropriate one. Once you have selected the appropriate Taxonomy code, the corresponding fields below the search box will be populated.

Choose Taxonomy Filter:

Filter by Taxonomy name or Taxonomy code.

* Choose Taxonomy:

Classification Name/Specialization:

License Number:  

State Issued:
At minimum, one Taxonomy Code and License (if applicable) must be entered on this page.

***15 Taxonomy Codes may be listed at MAX***

- All taxonomy codes available within the NPPES system may be found in the Choose Taxonomy: dropdown.

- The Choose Taxonomy Filter can also be utilized to filter by taxonomy name or taxonomy code.
